

I do not believe there is a solid delegation for any cause from a single southern community.

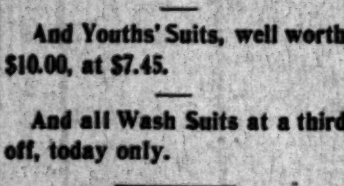

**RAILROAD NOTES.**  
Heavy crops for the State, but Southern California's oranges will be light—Senator Clark May Arrive Today.  
Shipments from California for coming year estimated at about 100,000 tons. These figures are estimated, they will mean a record for the heavy fruit crop for the State.  
Southern California's part in the general output remains to be seen. One-fifth would probably be an estimate. To ascertain an estimate as to the total crop of this year, the local railroads have taken the necessary steps through instructions to their many station agents.  
The Santa Fe authorities have just received the output of the fruit crop for this year. Dropping has done damage. This misfortune has kept the company from carrying up its usual output before this time.  
As a matter of fact oranges have been sold at a low price, but they are not as good as the ones of the Santa Fe yesterday. "I'm afraid," said he, "that the crop will be pretty light. But I make any estimate until we hear our agents."  
The official, however, has established a record for himself in crop output. For the crop year ending next year, his estimate, made about a year ago, was that Southern California's crop would be 100,000 tons. To date the crop aggregates 100,000 tons, with three months remaining to make the estimate. The official is of the off-hand opinion that the deciduous output of California for the present season will be about 100,000 tons. The little more. The prune crop here is but heavy in the north, the yield promising to aggregate 100,000 tons. It looks as if prices would be low.  
**RAILWAY NOTES.**  
New freight rates have just been made by the Southern Pacific. The combined kitchen rate "like mother and child" seems to be coming into vogue. The rate for the combined kitchen rate is 10 cents per ton. The rate for the combined kitchen rate is 10 cents per ton. The rate for the combined kitchen rate is 10 cents per ton.  
**THE DELANY.**  
First quality crystal glass. 10 cents per ton.  
**ITZ FOOLED THEM.**  
Went Down the Freight Elevator and Dug an Immense Crowd at Hotel Angelus.  
"Ah, dat's him—hear how he landed on de bell!" murmured the newboys among the crowd gathered before the elevator of the Angelus last night, waiting breathlessly for the appearance of the immortal Fitzsimmons. The populace thought he would come down and face the music of admiring voices without faltering, when it came time for him to repair to Hazard's Pavilion; but he didn't. He gave an awestruck belchboy the high sign to make the freight elevator fast to the Fitzsimmons floor, and early in the evening he dropped down in it and made stealthy tracks to his engagement through the back alley.  
By dinner time a dense crowd had gathered about both entrances to the hotel. It became a difficult task for one to make his way in or out of the house. Every class of society was represented in the "rubbering" throng; but the "newbies" and messenger boys, whose god Fitz is, led the crowd in every move.  
The inward rush occurred when the long fighter appeared once, cautiously from behind a big jardiniere, and mingled with a little party of friends. In a moment the big office was a crush of men and boys. It looked as if the furor would be swept out.  
When the surge broke around him, Fitz mysteriously maneuvered, and the next thing the people knew the grating behind "Ah!" every time the bell rang from an upper floor. "It's him this time, sure"—but it never was.  
At a late hour the incongruous crowd, which had made a rush into the Angelus office when Fitz once stuck his nose out of the cage, was still gazing up the front elevator shaft, breaking into sobs of "Ah!" every time the bell rang from an upper floor. "It's him this time, sure"—but it never was.  
**IMMENSE FOREST FIRES.**  
BATTLE LAKE (Wyo.), Aug. 8.—Three immense forest fires are burning fiercely within a few miles of this town. Hundreds of thousands of dollars worth of most valuable timber in Wyoming has already been destroyed, and unless the flames are checked by rain the loss will reach into the millions.  
**ROYALTY NEEDS NEW BLOOD.**  
LONDON, Aug. 8.—A dispatch to Dail's News Agency from Rome says the Pope has notified the reigning houses of Europe that no more dispensations for consanguineous marriages will be granted. It is the wish of the Pope, says the dispatch, that royal personages contract marriages outside of royal families, in order to stop degeneration.

## Ancient Weapon Found.

The remains of what appears once to have been a battle-axe were brought to the Chamber of Commerce yesterday by M. J. Field of No. 532 Santa street, who unearthed the relic four feet underground, near Seventh and Alameda streets. The remaining portion of the blade is about eighteen inches long, so ancient and wasted, that it is black and baked and is a piece of petrified wood. The hill is so corroded and balled by now-inseparable mineral that the relic is in the appearance of a piece of quartz, in the shape of a bill. The wooden part of the grip is still well preserved. The relic is evidently from the very earliest days of California.

## TENNIS CUP MAY SUTTON'S.

## Little Champion Adds to Her Honors.

## Great Men's Match Even, but Unfinished.

## Close Contest in Consolation Singles—Pretty Social Function.

Miss May Sutton successfully defended her championship at the Santa Monica tennis tournament yesterday, and since she has now won the cup three times, it becomes her property. Miss May defeated her sister, Miss Violet, the winner of the tournament, in straight sets, score 6-1, 6-1. The grand stand was crowded for this match, as in fact it has been for all the best events of the tournament. The attendance this year has been larger than ever before.

It was generally believed that the little champion would have no trouble in defending her title. Each year her game improves, and it has long ago surpassed that of her sister. In fact Miss May can give some of the gentlemen players plenty of work in a match on the cement, and few, if any of them, can beat her at a back-court game.

Previous to the championship match Miss Violet Sutton had bested Miss Florence Sutton in the final.

**GREAT CUP.**  
The great match of the day was the finals of the men's doubles between the North and the South, and it was not finished because so closely contested that darkness fell before it was decided. It was Smith and McGavin of San Francisco against Freeman and Britton of Pasadena. When the match was called, on account of approaching darkness, each team had won two sets.

The final and deciding set will be played this morning at 9:30 o'clock. It is to decide whom shall meet the champions, Bell and Braly, in the afternoon for the cups.

Consolation singles. The consolation singles match yesterday was the greatest double affair that has ever been played at a Santa Monica tournament.

The northern men took the first sets quite handily, giving their opponents only one game. It was done by good, steady play, and the southern players played good jobs, but the local men handled badly. But the next two sets were gathered in by Freeman and Britton, and smashing, with an occasional drive and hard-fought rally at the net. The result of the games were won on serves.

The northern men have many southern sympathizers, who declare that since they came so many miles to win, and were beaten in the singles early in the game, they should have the consolation match.

**CONSOLATION SINGLES.**  
In the consolation singles yesterday a terrific match was fought between Claude Wayne and Frank Hart, the former winning by 3-6, 6-2, 14-12. That last set was the longest one of the tournament. Wayne started it by taking five straight games. Then Hart overtook and passed him, and had the score six games to five in his favor, and only one point to win.

Sinabugh and Wayne made a most uncomfortable match for Britton and Freeman. The Pasadena men won the first set, 6-0, and then lost the next, after having a lead on it. Sinabugh and Wayne played a rattling game, and won five games to two on the deciding set, but their opponents pulled out by the skin of their teeth.

**TODAY TO BE BEST.**  
A good deal of work has to be done today to finish all the events. There are three matches of consolation singles to be played off, several in the mixed doubles, and ladies' handicap and doubles, and the men's doubles' championship, besides the one set in the finals.

Bell, who, with Braly, holds the doubles' championship, is hurt, in fact, in his match against Freeman, but hopes to be able to play.

**SUMMARY:** Consolation singles, Smith beat Wayne, 6-0, 6-1; Claude Wayne beat Hart, 3-6, 6-2, 14-12; McGavin beat Fuller, 6-0, 6-2.

Ladies' singles: Violet Sutton beat Florence Sutton, 6-2, 6-4; May Sutton beat Violet Sutton, 6-1, 6-1.

Mixed doubles: Wayne and May Sutton beat McGavin and Miss Seymour, 6-3, 7-5; Britton and Mrs. Seymour beat Smith and Mrs. Hendrick, 6-2, 3-6.

Ladies' handicap singles: Miss Seymour beat Mrs. Seymour; Mrs. Hendrick beat Miss Hendrick.

**PING-PONG.**  
In the open ping-pong tournament, Godfrey of Riverside defeated Ethel Sutton in a hotly-contested match. Miss Sutton winning one set. Miss Florence Sutton beat J. D. Holmes of Pasadena, 6-5, 6-4, and then went down to defeat the final to Godfrey, 3-6, 6-2, 6-2. So Godfrey is the open ping-pong champion of Southern California.

**TENNIS TREAT.**  
Mrs. Sutherland, Hutton and Mrs. Abbot Kinney were the charming hostesses of yesterday's tennis tea. A number of well-known society maidens assisted in making the afternoon beverage. ## RUN DOWN BY CHINK.

## Chief of Detectives Shown no More Favor Than an Ordinary Citizen by Spraying Wheelman.

Chinaman, riding a bicycle ran into and knocked down the Chief of Detectives last night, at First and Spring streets, and lives to tell the tale. To be sure, he will not recover from the shock until long after his victim has forgotten the incident, and his growth has been prematurely dwarfed by the fright, but he escaped with a whole skin and his life, and was not even arrested.

Capt. Bradish was descending at First street, when the Chinaman approached, riding at a rate of speed which was probably above the legal limit. The wheel was equipped with a cowbell which sounded like the tinkle of a cowbell in the next county, and it was not the Chinaman's fault that the august captain of detectives did not hear it. The collision which followed, sent Chinaman and officer to the ground, and the former up frightened, the latter angry. He seized the Chinaman and led him to the sidewalk, and what he said to him only the Chinaman knows. The Mongolian was so frightened that he couldn't talk even Chinese, and big-headed Bradish, after chivvying him for a while, was an accident, and that that particular Chinaman would not run down any more pedestrians, let him go.

## WIRELESS WILL BE CONNECTED.

## WESTERN UNION TO HAVE LINE TO WHITE'S POINT.

Test of New System Convinces Telegraph Company That Santa Catalina Can Be Placed Within Quick Reach of All the World.

Within three weeks, according to statements made yesterday, Santa Catalina will be in telegraphic communication with the outside world. The Western Union Telegraph Company has poles on the way, and they are expected today at San Pedro for the line from that place to White's Point, to make connection with the Pacific Wireless Telegraph Company's station. The work of setting up the poles and stringing the wires will be commenced at once, it is announced, and should be completed within a few weeks. Superintendent Lamb of the Western Union, from San Francisco, and Manager Edgar A. Beardslee of the Los Angeles office went to White's Point the other day and witnessed tests which convinced them that the wireless system between the island and mainland is in practical working order, though there are minor details yet to be perfected. The wireless pole has been applied to the Western Union for connection from San Pedro, and as the result of the test poles were ordered and arrangements made for installing the line that is to make the Southern California island group as easily and quickly communicable with New York as from Los Angeles.

"Mr. Lamb and I went to White's Point and saw enough to make us believe that the wireless system is working all right," said Manager Beardslee of the Western Union yesterday. "I knew the gentleman at the Avalon station, and I saw a message which went through all right, while Mr. Lamb received a message from Avalon."
